

# HOW TO REQUEST A PARENTAGE VERIFICATION REPORT

**STEP 1** You must log into your account. Once logged in click on the **Parentage Requests** tab

**STEP 2** Select if you require either Dam & Sire Confirmation or Single Parent Confirmation (Dam OR Sire). Dam and/or Sire **must have been** DNA profiled by Orivet

**STEP 3** Select your animals and submit your request by clicking on the **REQUEST FROM ADMIN** button. Your request will then appear on this page. If verifying more than one offspring then repeat the request for those offspring, each animal needs to have its own request. Animals that have been shared will also appear in this drop down menu. To help make the selection easier we recommend that you complete the sex of each animal. If you have entered the sex as "female" they will only appear in the Dam or Offspring section, if you have entered the sex as "male" they will only appear as a Sire or offspring.

## HOW TO REQUEST A PARENTAGE VERIFICATION REPORT

Once your request has been interrogated and verified by Orivet (up to 5 working days), you will receive an email with your Parentage Report attached as a PDF. All reports are also available to download in your online account via the **Parentage Requests** tab.

### Submitted for verification

#	OFFSPRING	DAM	SIRE	SINGLE PARENT	REQUESTED DATE	STATUS
